Description

A luxuriously renovated five-room apartment of 178 square meters is for sale in S.I. Vashkov's apartment building with animals on Chistoprudny Boulevard.

The functional layout includes a living room with a fireplace, a kitchen, a dining room, two bedrooms, a study/library, two full bathrooms, a pantry, and a dressing room. The apartment features a custom-made renovation using natural materials: the rooms are adorned with luxurious chandeliers and original moldings, custom-made designer furniture, all solid wood doors, and oak parquet flooring.

The Scavolini kitchen is equipped with ILVE appliances, and the bathrooms are equipped with Sanitan fixtures. Daikin air conditioners and a combined ventilation system are installed, and the ceilings are 4 meters high. The windows offer a beautiful view of the pond, and the kitchen windows face the courtyard.

The property is fenced, and surface parking is available in the courtyard under a barrier.
