Residential complex 1st Kolobovsky pereulok 14

Трубная ЦАО Moscow, Moscow, 1st Kolobovsky pereulok 14

Number of
storeys **6**

Description

The 1st Kolobovskiy Pereulok, 14 clubhouse is located in Moscow's prestigious Tverskoy District, on a quiet boulevard lane. Built in 2005, the custom-designed building is a six-story monolithic brick structure with reinforced concrete floors. Its club-style layout ensures a high level of privacy.

The architecture utilizes premium materials: the facades are clad in granite and porcelain stoneware. Ceilings reach 3.6 meters, and panoramic windows offer scenic views of the quiet alleys of old Moscow. The building features two high-speed passenger elevators, central air conditioning, combined ventilation, a sprinkler system, and high-speed internet.

The infrastructure befits its high status: secure grounds with 24-hour security and video surveillance, underground parking, and a landscaped courtyard with lawns and pedestrian paths. The building also houses a dental clinic. Management is provided by Uyutny Dom-M Management Company.

The location offers the perfect balance of tranquility and accessibility: Trubnaya metro station (5 minutes' walk), Tsvetnoy Bulvar (7 minutes), and Pushkinskaya (9 minutes) are within walking distance. The Tsvetnoy Boulevard promenade, numerous shops, schools, kindergartens, and restaurants are all within walking distance.
