Residential complex KAZAKOV Grand Loft

Курская ЦАО Moscow, ulitsa Kazakova 7

Number of storeys **11**

Description

"Kazakov Grand Loft" is a business-class apartment complex in the historic Basmanny district on Kazakova Street. It offers 283 apartments (including penthouses) ranging from 20 to 128 square meters.

The architecture is based on a contemporary approach to the loft style. The facades are clad in hand-molded clinker bricks in a unique palette of dark gray and copper-red metal. The building, with varying heights (from 4 to 11 stories), forms an intimate courtyard. Ceiling heights start at 3.2 meters, reaching 5.67 meters in the penthouses.

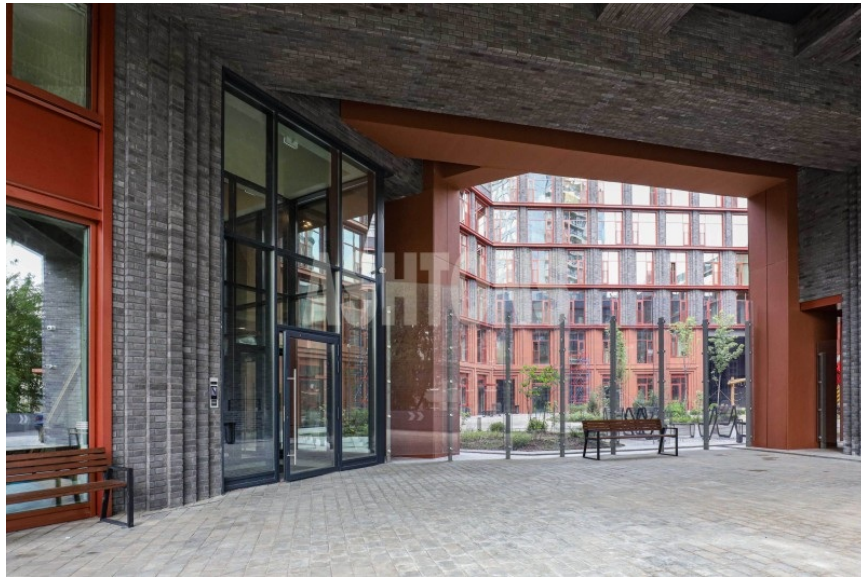

The facades and public areas are finished with natural stone, wood, and matte metal.

The courtyard is designed as a landscaped garden with seating areas. Residents on the ground floors enjoy private patios. But the main feature is the multi-level open terraces. They offer panoramic views of the historic center, including the Church of St. Nikita the Martyr and the Kremlin towers.

Residents have access to a fitness center, three separate lobbies with 24/7 concierge service, and a three-level underground parking garage with 129 spaces and electric charging stations. Smart services available via an app include cleaning, housekeeping, delivery, florist, pet walking, and scooter and bicycle sharing. A multi-level security system and video surveillance ensure privacy.

The Garden Ring (100 m), Kurskaya and Chkalovskaya metro stations (7 min), and Bauman Garden (5 min) are within walking distance. Red Square is a 30-minute walk along Maroseyka and Ilyinka streets. Nearby are shops, cafes, restaurants, and bank branches on the ground floors of the complex.
